## **Collection Description**

### **Biographical Note**

The Georgia Conference of the Methodist Episcopal Church, originally part of the South Carolina Conference, was formed in 1830. In that same year the Methodist Protestant Church was formed as the result of a disagreement over the issue of lay participation in church government. In 1844 the Methodist Episcopal Church, South separated from the Methodist Episcopal Church over the issue of slavery. In 1866 the Georgia Conference of the Methodist Episcopal Church, South divided to form separate conferences for North and South Georgia. With this division, the North Georgia Conference underwent a period of rapid growth. Its membership was estimated at 38,211 in 1866 and had grown to 58,520 by 1875. In 1939 the Methodist Episcopal Church, Methodist Episcopal Church, South, and the Methodist Protestant Church merged to form the Methodist Church (United States). The North Georgia Conference of this new unification consisted of ten districts with a membership of 156,400. In 1968 the Methodist Church merged with the Evangelical United Brethren to form the United Methodist Church. In 2000 the North Georgia Conference consisted of twelve districts with a total membership of 308,489 persons.

### **Scope and Content Note**

This collection consists of reports, histories, photographs, and bulletins from churches in the North Georgia Conference of the United Methodist Church (U.S.). These histories were maintained by the Conference for each church for which members contributed information. Although the depth of information varies for each church, some of the material includes dates the church was founded, founding members, pastors, membership lists, location of the church, and other pertinent data. Many of the histories were prepared by members for church homecomings and anniversaries.
