Collection Description

Scope and Content Note

This collection consists of color wood engravings and calendar prints of international cities, primarily in Germany, that the Pitts Theology Library acquired over a period of several years. Item numbers 1-29 are prints used on calendars produced by Otto Harrassowitz, a German publishing company. Item numbers 30-51 are original color wood engravings. All of the engravings have been matted. The images are labeled in Latin, but the calendar prints include descriptions of the cities that are written in German.

Emory Libraries provides copies of its finding aids for use only in research and private study. Copies supplied may not be copied for others or otherwise distributed without prior consent of the holding repository.

The prints and engravings are arranged numerically in the boxes, but the container listing is sorted alphabetically by country, and thereunder, alphabetically by the name of the city.

Arrangement Note

Arranged by name of country.
