## **Collection Description**

### **Scope and Content Note**

The conference proceedings series consists of three types of records created at the yearly sessions of the Georgia Conference (1846-1865) and the North Georgia Conference (1866-1921). The minutes (1846-1921) contain the daily proceedings of the conference, including all board, agency, and committee reports, debate proceedings, results of voting, ordination proceedings for clergy, and lists of appointments of pastors for the coming year. The rolls (1850-1901) list all clergy members in attendance or the reason for their absence. These lists also indicate the status (eg. probationary member, full member, retired, deceased) of each clergy member at the beginning of the conference and any changes in status that occurred during the conference.

The statistics (1867-1905, 1931) constitute the third record type in the series. These are reported by district and list all data for each charge within the district including numbers of clergy, white members, black members, adults baptized, infants baptized, net gain or loss in membership, and value of property. Other sections list apportionments (money paid by each charge to support the work of the general church), Sunday School statistics, and money spent on foreign and domestic missions and church extension.

### **Arrangement Note**

This series is arranged alphabetically by type of material and, thereunder, chronologically.
