**Scope and Content Note**

The collection consists of four letters written to Braxton Bragg from 1861-1864. A May 13, 1861 letter from J.S. Thomas, Tuskegee, Alabama, suggests the use of capsicum (a pepper) as a chemical agent in bombs thrown in order to take Ft. Pickens. A November 17, 1863 letter from H.H. Waters, Secretary of the Executive Dept in Milledgeville encloses a resolution of thanks for Bragg's part in the Battle of Chickamauga. The third letter, December 10, 1863 from physician Josiah Clark Nott in Mobile, Alabama mentions the use of hypnotism on nervous disorders (shell shock?). The final letter is from Herschel V.
