Processing

Born digital materials processed, arranged, and described by Brenna Edwards, 2020.

Forensic disk images were created from the flash drive using CygWin. Individual files were extracted using FTK Imager and scanned for viruses using McAfee's anti-virus software; none were found. Duplicate and system files have been removed, and files were scanned for personally identifiable information; none were found. Files retain original titles.

Emory Libraries provides copies of its finding aids for use only in research and private study. Copies supplied may not be copied for others or otherwise distributed without prior consent of the holding repository.
