Series 4: Additions arranged and described at the item level by Sarah Quigley, March and September 2017. The photographs in Series 4 are arranged and described differently than the photographs in Series 1. The same organizational structure and descriptive categories apply, but the photographs in Series 4 have been described individually. Some new categories have been added. Any associated biographical or manuscript material is included with the photograph and has not been separated and described separately. Most, but not all, of the photographs have been sleeved. They are not digitized.

OP145 was a duplicate image of OP59 (William Saunders Crowdy) and has been removed from the collection.
